

CORTLAND[®]
SPORTFISHING

It's been quite a ride since 1915, and things really have changed a great deal along the way. At the very same time, it is truly comforting to know that some things haven't changed one bit around here – and probably never will. We'll still have those hills to climb. We'll still have that crystal-clear goal of delivering the finest lines in the world.

It is with great pride that we present to you our 2009 Sportfishing Catalog. It is packed with our latest and most cutting-edge products helping enjoy your time on the water. also notice a few time-tested favorites that we, and our faithful customers, just can't seem to say goodbye to. Cortland Lines. Over 90 years of making the finest lines in the world, fished the world-over.

CORTLAND C¹⁶ - "SPLICEABLE" SUPERBRAID

New for 2009, Cortland has again raised the bar with super braid construction and technology. Cortland is proud to introduce C16 Spliceable Superbraid. Constructed using high-tech Spectra fibers in a 16 carrier construction for an extremely small diameter to strength ratio. C16's, 16 carrier braid construction and uniformed pick count (wraps per inch) is the perfect match for allowing you to quickly splice a few feet of mono, while maintaining line strength between the braid and the top shot. Cortland has also treated C16 with their proprietary "FIBER TECH" Superbraid Protection that dramatically increased the braid's durability and ensures consistant performance over time.

C¹⁶ SPLICEABLE SUPERBRAID WHITE
Spools / Tests:
 600 Yards - 80, 100, 130, 200
 1200 Yards - 80, 100, 130, 200
 2500 Yards - 80, 100, 130, 200

130# MONO SPLICED INTO 80# C¹⁶ SUPERBRAID

FIBER TECH™ SUPERBRAID PROTECTION
 Cortland's proprietary FIBER TECH super-braid protection treatment was scientifically developed and tested to ensure consistant performance, color fast, line stiffness along with extreme durability. The FIBER TECH treatment penetrates the entire braid, not just the surface to ensure the braid is treated and protected inside and out.

CORTLAND MASTER BRAID - "STIFF SUPER BRAID"

With almost 100 years of braiding experience and technology, Cortland Line is proud to offer the next generation of "Premium Super Braid" - Master Braid. A premium super braid constructed using all the best features of Cortland's legendary Spectron braided line, but with a unique coating that makes the braid permanently stiff.

Master Braid is constructed in a way that makes it rounder, which means less twist, greater accuracy, longer casts and extended life. A proprietary Cortland process bonds the color and finish into the fibers of the braid eliminating fading or flaking of the color and stiffening agent. With only 4% stretch, small diameter pound/test ratio and a unique hydrophobic coating that slices through the water and comes back dry, this new Master Braid delivers greatly enhanced fishing qualities and performance. Master Braid is very easy to use and works equally well on both spinning and conventional reels.

FIBER TECH™ SUPERBRAID PROTECTION

Cortland's proprietary FIBER TECH superbraid protection treatment was scientifically developed and tested to ensure consistent performance, color fast, line stiffness along with extreme durability. The FIBER TECH treatment penetrates the entire braid, not just the surface to ensure the braid is treated and protected inside and out.

Super Braid - we understand how important accurate specifications are to the angler who chooses to use Cortland Super Braid products. As a result we have made the measurements as accurate and as detailed as possible. *Masterbraid* is **round** braid and has consistent measurements across the length. Some braids are flat and may vary greatly - beware of low false diameter readings taken at the flattest measured point. Breaking strength is **tensile** strength. Don't be fooled! Our customer's trust is important to us. We won't manipulate measurements just to make a sale.

SPECTRON® "STRENGTH OF STEEL"

Why is Cortland's Spectron considered the best Super Braid in the industry? Our braiding technicians have combined specific critical elements to maintain the optimum number of "picks" per inch for this high performance polyethylene fiber. The result is a time-tested braid that combines low stretch (4%) with small diameter pound/test ratio. The extra limp body is perfect for casting. Its unique slick, hydrophobic nature allows Spectron to slice through the water and come back to you dry!

SPECTRON BLACK SPOT has won its place as THE hands down favorite trolling and vertical jigging line. Need to pull a big grouper away from a wreck, see the hook on a cod 200 feet down, drag a flathead out of his lair or put the "boots" to a yellow fin? Black Spot's got what you need!

SPECTRON BLACK SPOT

Spools / Tests:

NEW! BRIGHTER COLORS

KERPLUNK PREMIUM LEAD CORE

Wanna get down? This is what you need: super tough nylon is braided over a lead core then dyed a different color every ten yards. Just may be the perfect trolling line!
 Spools: 100 yd. and 2/100 yd.
 Tests: 14, 18, 27, 36, 45 and 60 lb.

LEAD CORE - KERPLUNK

Break Strength	Weight of 10 ft.	Grains / Foot
14	46 grains	4.6
18	110 grains	11.0
27	114 grains	11.4
36	118 grains	11.8
45	124 grains	12.4
60	131 grains	13.1

At 5 to 1.8 mph trolling speed, using 10 ft. mono leader.
 RULE A - 6 ft. of lead core (let out) = 1 ft. diving depth
 (Meaning that 1 color = 5 ft. diving depth)

GREAT LAKES "READY-TO-TROLL" LEAD CORE
 Available in 5 color (150') and 10 color (300') lead core

Tests:
 5 color - 18, 27 and 36 lb.
 10 color - 18, 27 and 36 lb.

GREAT LAKES: READY-TO-TROLL LEAD CORE

5 Color - 150' (50' - 20# Mono / 150' - Lead Core / 300' - 30 lb. Backing)

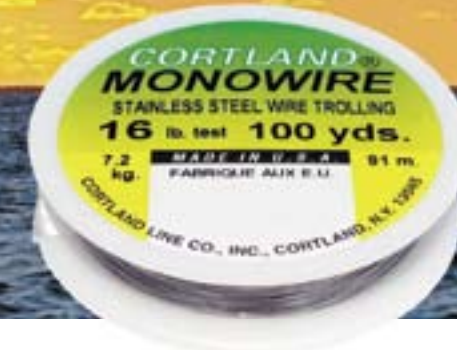

Albright Knot used between each line

Break Strength	Weight of 10 ft.	Grains / Foot
18	110 grains	11.0
27	114 grains	11.4
36	118 grains	11.8

10 Color - 150' (50' - 20# Mono / 300' - Lead Core / 300' - 30 lb. Backing)

Albright Knot used between each line

Break Strength	Weight of 10 ft.	Grains / Foot

MONOFILAMENTS

ENDURANCE "SUPER PREMIUM" MONO

Cortland Line is proud to offer a technologically advanced "Super Premium" monofilament fishing line – Endurance Mono. With advanced high quality features that can directly improve a fisherman's performance and success. The low diameter and glass smooth finish allows for an extremely low co-efficient of friction resulting in ultra smooth casts and retrieves and a ultra sensitive "feel" while the line slices through the water.

Endurance Mono was formulated with unique additives allowing for remarkable abrasion resistance and superior knot strength. When it's time to endure the toughest fishing conditions, and be confident...make sure you're using the line that will endure it all – Cortland Endurance Mono.

- SUPERIOR KNOT STRENGTH
- GLASS SMOOTH FINISH
- LOW CO-EFFICIENT OF FRICTION

Color: Clear / Hi-Vis Yellow / Hi-Vis Orange
Spools: 300 / 2400 yards
Tests: 4, 6, 8, 10, 12, 15, 20, 25, 30 lb.

CAM-O-FLAGE® MONO

Why are fish spooked by the fishing line? A continuous connection leading out of your lure or bait shouts 'something's wrong' to any wary fish. Cortland solved this problem by dyeing Cam-O-Flage mono every two feet, breaking up the connection and putting fish off guard. Make sense? Get away from the poor knot strength and super toxic chemicals of Fluorocarbon mono that's made overseas! Try U.S. made Cam-O-Flage the next time you need to fool keen eyed fish in clear water.
Tests: 4 - 30 lb

- THREE COLOR
- BLENDS INTO ENVIROMENT
- HIGHLY DURABLE

CAM-O-ES MONO "EXTRA SOFT"

Cam-O-Extra Soft boasts the same high abrasion resistance and durability as the original Cam-O, while adding a super supple memory free construction. The 'match-the-water' feature allows you to cut back the line to the color that matches water conditions, giving you a virtually invisible connection to your bait or lure.
Tests: 2 - 30 lb.
2 - 12 pound / 110 yd. spools
2 - 20 pound / 300 yd. spools
25 pound / 250 yd. spools
30 pound / 210 yd. spools
2 - 20 pound / service spools

FLEA-FLICKER™ MONO

Many years ago spiny water fleas invaded the Great Lakes water shed and made life miserable for trollers in three states! As the water warmed in late summer, billions of these exotics appeared, attaching themselves to any fishing line that came by! We started working with charter captains and avid anglers in Lake Ontario and soon developed a revolutionary premium grade light green mono with a special shape and high slip additive that is proven to reduce or eliminate the problem of water flea attachment to troller's lines. Now we're heroes!
Spool: 300 and 2500 yard
Test: 20 and 30 lb.

MIRACLE™ MONO

A miracle in performance and value! High impact strength and superior knot strength make this line a great value.
Color: Clear
Spools: 6/100, 600, 1000, 1200, 1500, 1800, 2200 and 4000 yd.
Tests: 4, 6, 8, 10, 12, 15, 20, 25, 30, 40 and 50 lb.
4-30 pound / 6/100 yd. spools
4-15 pound / 1000 yd. spools
20-50 pound / 600 yd. spools
60 pound / 200 yd spools
80 pound / 140 yd. spools
100 pound / 110 yd. spools

MASTER MONO

Cortland technicians are proud to offer a premium clear monofilament fishing line – MasterMono. MasterMono is an all-conditions, extremely supple, easy handling monofilament fishing line formulated with unique additives that enhance durability and abrasion resistance. Most anglers today demand a premium monofilament for most fishing conditions that they encounter. If you are picking one premium monofilament, make it Cortland MasterMono.
Color: Clear, Hi-Vis Yellow
Spools: 100, 300, 600 yard and bulk spools
Tests: 4, 6, 8, 10, 12, 15, 20, 25, 30, 40, 50 lb.

"ALL-CONDITIONS" MONO

- EASY HANDLING
- EXTREMELY SUPPLE
- HIGHLY DURABLE

BRAIDED LINES

MUSKY MASTER™
 Made from our time-tested, abrasion resistant, low stretch Micron fibers Musky Master's precision braiding and precise pick placement means super knot strength and fewer break-offs when casting heavy, "musky-sized" baits. Available in low-vis black finish, Musky Master is the line Musky masters across the U.S. have relied on for nearly half a century. Spools: 100 and 1200 yd. Tests: 18, 27, 36, 45 (63 lb. in 100 yd. only)

MUSKY MASTER - Targeted Elongation 18%					
Black	Break Strength	Avg. Mono Equiv.	Avg. Dia. In.	Avg. Dia. mm	Avg. Picks/In.
	18	N/A	.017	.450	42
	27	N/A	.019	.501	30
	36	N/A	.026	.672	35
	45	N/A	.028	.717	31
	63	N/A	.035	.885	25

BRAIDED NYLON
 Still the most abrasion resistant line you can use, our Braided Nylon boasts super castability and a controlled stretch that has made this line the choice of the serious baitcaster for over 60 years! Available in low-vis black and the exclusive Cortland "CAMO". Colors: Black Spools: 100 yd. Tests: 12 (black only), 15, 20, 25, 30, 35, 42 and 50 lb.

BRAIDED NYLON - Targeted Elongation 28%					
Black	Break Strength	Avg. Mono Equiv.	Avg. Dia. In.	Avg. Dia. mm	Avg. Picks/In.
	12	N/A	.016	.406	60
	15	N/A	.020	.520	61

	25	N/A	.022	.577	57
	30	N/A	.026	.678	53
	35	N/A	.027	.685	49
	42	N/A	.030	.762	40
	50	N/A	.032	.813	39

WALLEYE THREE-COLOR TROLLING LINE
 The perfect in-line sinker system for the troller who needs to hit the depth! The Three Color Trolling Line features color changes every ten yards and a tough abrasion resistant exterior braid. Length: 30 yd. Tests: 14, 18, 27, 36, 45 and 60 lb.

DUCK DECOY CORD
 Easy to tie, rot resistant and economical. Length: 100 ft. Color: Black

CATFISH LINE
 Need a tough, economical braid that will stretch just enough? Here it is! 12 spools - 50 yards each Color: Assorted Tests: Assorted (18 thru 117 lb.)

BOW FISHING LINE
 Bow hunters are getting out of control! Stingrays, alligator gar, what next? We're ready. Tangle resistant, low stretch and testing at 72 pounds. Length: 50 ft. Tests: 72 lb

ICE FISHING

CAMO ICE MONO
 Cortland's Camo Ice monofilament is designed to be highly abrasion resistant and yet supple enough to prevent the normal coiling of monofilament in cold weather. Like Cortland's other Camo products, Camo Ice is dyed different camouflage colors every two feet to literally "catch" them off guard. Great for gin clear water where fish have become especially line shy. Spool: 110 yd. Tests: 2, 4, 6, 8 and 10 lb.

VINYL COATED TIP-UP LINE
 If you were to design the ideal tip up line for freezing temperatures, what would you include? How about: pliable braid (easy handling), vinyl coating (no freezing) and dark color (lo-vis)? We asked top ice fishing experts their opinion and guess what? It's the same as yours! Spool: 100 ft. Tests: 20 lb.

HI-VIS ICE MONO
 Premium mono designed especially for the rigors of ice fishing. The hi-visibility helps you see it down the hole while jigging. Abrasion resistance agents keep it supple and protects it from the jagged ice edges. Spool: 100 meter, 110 yard mini Tests: 2, 4, 6, 8 and 10 lb.

BRAIDED ICE LINE
 Specially crafted braid that resists kinking in cold temperatures. We've also made it water repellent to resist freezing and it's priced right to boot! Colors: Black and Tan Spool: 50, 100 and 150 and 1200yd. Tests: 20, 27, 36, and 45 lb. (20# not available in 100 yard spools) (Tan not available in 1200 yard spools)

TUNGSTEN ICE FLIES
 Unique to the market are Cortland's Pro Select Ice Flies. These Tungsten Beadhead Nymphs are hand tied, and have not been available to the regular ice fishing market, but have been sought out in fly shops and top ice fisherman for years as a top producing ice jig. Available in 3 different 4 packs.

ENDURANCE ROD SERIES

Cortland is proud to offer the "Endurance Series." Available in one and two piece spinning rods, one piece baitcasting rods one and two piece musky rods and two and three piece float rods. We have combined everything an angler would ever want: function, style and affordability to make the new Endurance rods the top choice for today's angler. These high modulus 100% graphite rods have been developed to be stonger than ever, while still providing the angler with the sensitivity needed to hook and land that fish of a lifetime.

The most stunning feature of the Endurance Series would have to be the rod blank. Before finishing the rod blanks are wrapped with an ultra thin graphite fiber, increasing the overall strength of the rod and providing a distinctive look.

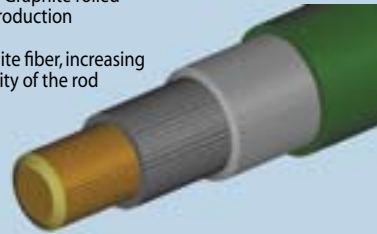

All Endurance rod blanks are finished in transparent olive sparkle flake and wrapped in tan with silver trim. Fugi components and textured or woven reel seats complete the rod's overall appearance.

ENDURANCE BLANK COMPOSITION

3 Layers of HM45 Million Graphite rolled together during blank production

Ultra thin external graphite fiber, increasing the strength and durability of the rod

ENDURANCE FLOAT RODS

Float rods have special characteristics that are represented in the length and action of the rod. Endurance float rods allow you to cast your float out further, control the float better in strong currents and wind, and strike fish quickly. The float rod should easily be able to cast out your float rig, have a nice soft tip so you don't pull the hook out of smaller fish's mouths, and most importantly, to have ample strength to fight and land any larger fish you catch.

CTR RODS

CTR SPINNING RODS

One piece powerful graphite blank for immediate hookset response and superior sensitivity. Top grade cork and screw down graphite reel seat for a comfortable casting grip.

CTR BAIT CASTING

These baitcasting models are designed to accommodate the discriminating bass, pike and light saltwater fisherman.

CTR SALTWATER BAIT CASTING RODS

Saltwater fans—these rods are for you. They have proven themselves to be ideal for fluke, blues and stripers—any of your saltwater game fish. Exceptional lifting power combined with excellent sensitivity.

JIGGING LURES

Nail-Tails

A versatile tail with a teaser at the end can be fished as is or cut to shorter lengths to suit any condition. These replacement tails can be used with Mini-Mite jig heads.

COLORS:

Assorted colors	Pink
Silk chartreuse	Purple/Clear Chartreuse
Clear chartreuse with glitter	Glow
White	Blue
Green	Bubble gum
Black	Red
Orange	Yellow
Clear chartreuse	Brown
Clear with Glitter	

Mini-Mites

These 1/32 oz. jigs are known throughout the country for their fish catching prowess. Great for Bluegill, Smallmouth, Perch, and Trout. No. 8 Gold Hook. You've never fished a jig like it!

COLORS:

Assorted colors	Yellow/Pink
Lime/Silk chartreuse	Pink/Purple
Orange/Clear chartreuse with glitter	Glow/Glow
Pink/White	Black/Red
Yellow/Green	Black/Yellow
Lime/Black	Green Blue
Lime/Orange	Pink bubble gum
Lime/Clear chartreuse	Orange brown

Mini-Mites 2

These 1/16 oz. jigs are slightly larger versions of the original. They are the perfect size and weight for large Panfish, Smallmouth, Walleye and Trout. These jigs use a No. 4 gold hook. Another proven size to add to any tackle box.

COLORS:

Assorted colors	Yellow/Clear chartreuse
Lime/Silk chartreuse	Yellow/Pink
Orange/Clear chartreuse with glitter	Pink/Grape
Pink/White	Glow/Glow
Yellow/Green	Clear chartreuse with black glitter
Green/Black	Green
Green/Orange	Orange/Melon with red glitter

Big Mini-Mites

These large versions of the original that have proven deadly on walleye and bass have also been used on dolphin, sea trout, and reds. No one should be without these. These jigs use a No. 2 gold hook.

COLORS:

White	Clear chartreuse/Pink
Clear chartreuse	Silk chartreuse/Yellow
Glow	Silk chartreuse/White
Assorted 7 colors	Purple/Clear chartreuse
Clear/Gold-clear/Silver	Black/Orange
Chartreuse/Smoke with black flake	Clear chartreuse with black flake and red

TOOTHY CRITTER TIE-ABLE STAINLESS STEEL LEADER

Chasing after pike, muskies, bluefish and barracuda requires specialized tackle. Even the toughest gear is useless against those razor sharp teeth unless you are fishing with a leader material that can stand up to the task. Cortland Line Company introduces Toothy Critter, the finest tie-able stainless steel leader material available for fishing. Aply named, Toothy Critter is tough as steel (because it is) a leader material that is supple enough for tying but tough enough for even the most razor sharp teeth. Conventional knots work fine.

STAINLESS STEEL MATERIAL

CUBBY® JIGS

Glow Cubbies

"Until now, glow soft plastic lures have been an off-white opaque (not clear) color and only glowed green. TRANS-GLO Mini-Mite tails are translucent (see through) and glow not only in green, but in green, blue, orange or pink.

TRANS-GLO Mini-Mite

The tails glow from the inside giving the tail a three dimensional glow when seen from any angle. No unnatural flat silhouette like from all previous glow lures."

Glow lures have always been a favorite for night fishing but fisherman have been limited to one tail color and glow color. Now, with TRANS-GLO Mini-Mites you have a choice of tail and glow colors to fit different conditions.

For daytime use, TRANS-GLO Mini-Mites give you an advantage over non-glow lures by not making the lure easier to see in murky or dark water, but tail colors are enhanced by the glow, making the tail a brighter presentation in dark or clear water.

JIG EYE CLEANER

SUPER BRAID SCISSORS

ROTATING HOOK SHARPENER

CURVED JAW FORCEPS

FOLDING NETS

DINSMORE WEIGHT SYSTEM

HOOK-EYE CLEANER #663008

Ultra sharp points allow you to clean out painted or dirty hook-eyes for easier line threading. (Points may have to be adjusted with use on different hook sizes.

SUPER BRAID SCISSORS #662919

Specially designed scissors will cut all types of super braid with ease. Stainless Steel blades will resist corrosion.

CURVED JAW FORCEPS #650695

Useful for the fly tier or as a streamside tool. Rust-proof stainless steel; 5-1/2".

FISHERMAN'S HELPER JR. #650503

This tool combines a line/leader clipper and hook eye cleaner with a Retrieve-It Jr. Easily pins on your vest or shirt. (Clipper also sold seperately #652156)

ROTATING HOOK SHARPENER #651470

A rotating diamond sharpening stone creates a needle sharp hook point each time. Turns your dull or inexpensive hooks into laser-like sharp hooks with just a few turns of the spindle.

DINSMORE WEIGHT SYSTEM

Available in weight forward Egg Shot design. This cushioned tin gives an angler high-tech performance without the toxicity of lead. Available in single sizes and multi-size dispenser.

FOLDING NETS

These lightweight aluminum nets are available in folding handle models or telescoping and folding handle models. These premium quality nets feature a soft rubber front to protect fish and come with a warranty. Grab one today. Available in S, M and L.

CX SPINNING REELS

CX ULTRALIGHT

CX 30

CX SPINNING REELS

Both casual and serious anglers are always on the lookout for a high quality, value priced spinning reel. Cortland is proud to introduce an all new spinning reel selection that will meet the needs of most anglers, fresh and salt. The Cortland CX spinning (fixed spool) reels feature three ball bearings in the Ultralight model and four ball bearings in the larger models, and infinite reverse with a large line roller and a balance rotor - all to provide you with one of the smoothest, most reliable reels available. Available sizes include Ultra-light, #10, #20 and #30.
