

## WORLD-RENOWNED FLY HOOKS

Today's Partridge continues our dedication to discriminating fly fishers and to the esteemed craftsmanship that is the Partridge heritage. Our vast range of premium fly hooks are created with the same painstaking care as in days gone by, but with new technologies like

Flashpoint — a chemical process which provides a smoother surface and a sharper, stronger point.

Discerning anglers will also appreciate our advanced heat treatment, which increases hook strength up to 30% compared to conventional tempering methods. Partridge fly hooks' needle-sharp points and sleek finishes ensure extremely smooth, seemingly effortless sets every time.

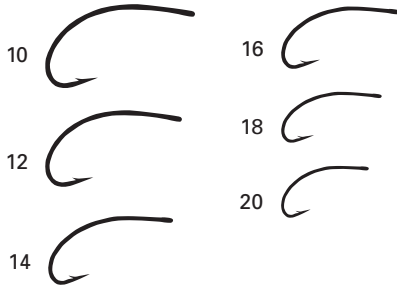

**15BN**

**KLINKHAMER**

The original design for the tying of the world famous Klinkhamer nymphs designed by Hans van Klinken, the originator of the pattern. Also good for many emerger/buzzer patterns. Black nickel

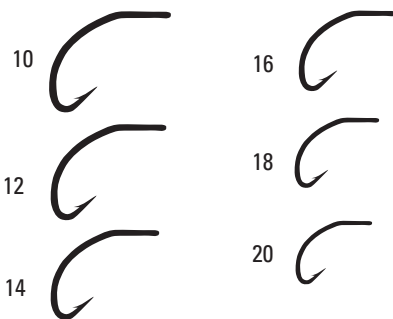

**15BNX**

**KLINKHAMER EXTREME**

Designed by Hans van Klinken, with a short straight shank for the parachute and an extreme kink on the shank for the submerged body. A true emerger! Black nickel

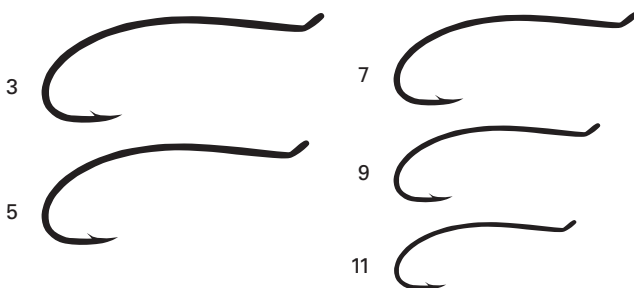

**CS14/1B**

**SALAR**

In-curved points, fine loop 45 degree up eye, curved in shank. This hook was developed by Mikael Frodin and is specially designed for modern salmon flies.

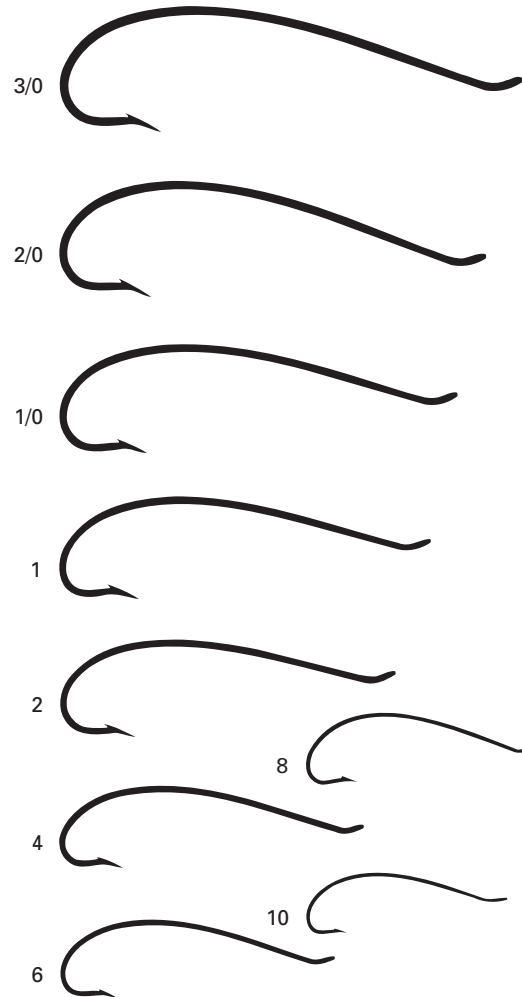

Ref No:  
Black CS14/1B

**CS10/1**

**BARTLEET TRADITIONAL FLY**

A graceful and effective hook for steelhead and salmon flies. Dublin style point. Looped up eye. Black

**CS14T/1B**

**TUBE SINGLE**

Keep fishing with your tube flies even where doubles are banned. Salar Tube Single is a further development from the successful Salar single. With a needle eye it slips easily into any tube.

Ref No:  
Black CS14T/1B

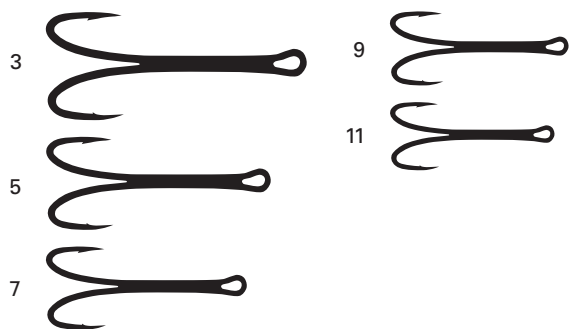

**CS14/2B**

**SALAR DOUBLE SALMON**

The new Salar range of hooks designed and used by top Swedish Salmon angler Mikael Frodin. These hooks feature an in-curved point, fine loop 45 degree up eye and curved shank. The tapered eye is shaped to allow easy use of the Turle knot. The combination of traditional and modern technology has enabled us to make this type of eye available again. These hooks are perfect for the devoted fly tyer as well as the serious Sea Trout and Salmon angler.

Black CS14/2B

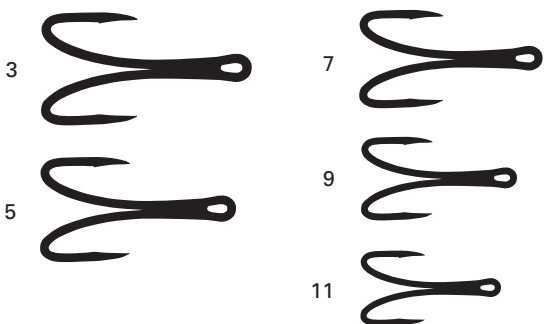

**CS14T/2B**

**TUBE DOUBLE**

Increased use of tube flies for fishing has generated the demand for Salar tube double based on the successful Salar Double. The slightly beaked point secures your catch without losing any striking power.

**CS45BN**

**AD SWIER ABSOLUTE**

Designed by Ad Swier. Its exceptionally wide gap and barbless, up-sweeping point result in consistent hook-ups and great fish-holding capability. Large-profile flies can be tied on this light wire hook, making for easier casting. Black nickel

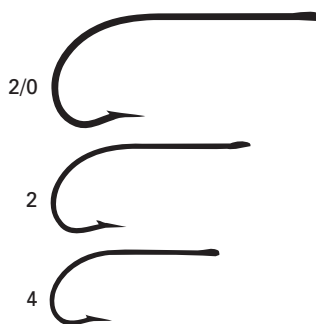

**CS52**

**SEA PRINCE SALTWATER FLY**

The larger sizes are suitable for tarpon flies. The smaller sizes are for bonefish and smaller saltwater fly patterns. Shiny Silver — Stainless Steel

**CS54**

**PARTRIDGE SALTWATER SHRIMP FLY**

A very special hook for saltwater shrimp imitations. It is also used for shorter streamer patterns. Grey Shadow

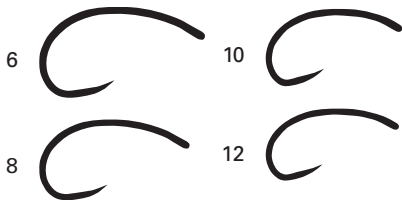

**CZ**

**AUTHENTIC CZECH NYMPH**

At last, a pattern that matches the famous Czech nymph hooks used in the World Championships. The curved shank and in bold offset point are crucial to this design. The in curved and offset point gives very secure hookholds even though the design is barbless. These hooks are perfect for the weighted nymphs used in the "Czech" style of fishing. Black nickel

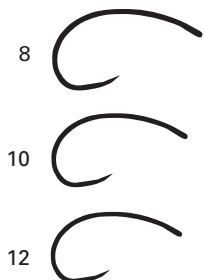

**CZF**

**FINE WIRE CZECH NYMPH**

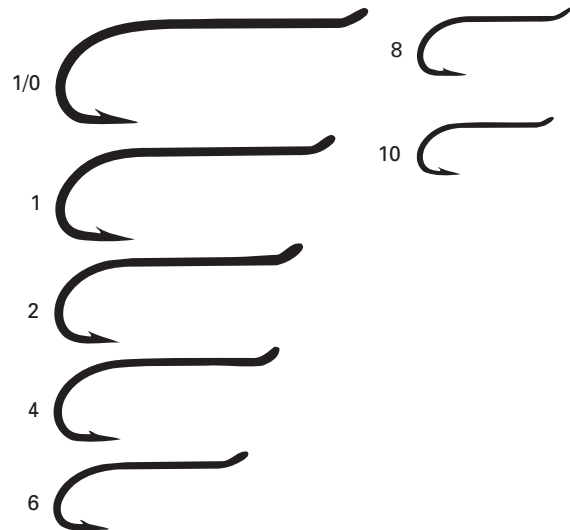

Due to great demand, we are proud to offer this fine wire version of our very popular CZ Nymph hook. Black nickel

**M**

**PARTRIDGE SINGLE SALMON**

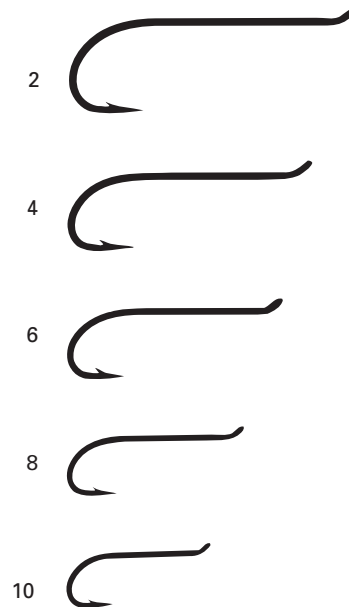

"Heavyweight" salmon irons for traditional salmon, steelhead and sea trout wet flies. Looped up eye. Black

**N**

**PARTRIDGE SINGLE LOW-WATER**

The hook for low-water, medium-weight salmon, steelhead and sea trout flies. Longer shank. Looped up eye. Black

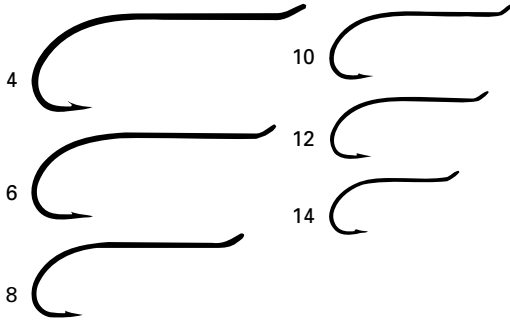

## 01

### PARTRIDGE SINGLE WILSON
