

# STEALTH

## ON A MISSION!

The Stealth line by Seeker is breaking new ground. This new series is utilizing new composite technology to create a light weight, high strength rod blank that is affordable. The Stealth line is replacing Seeker's traditional "American" series of rods. Like its predecessor who's life spanned 20+ years, the Stealth will surely be a staple in many fishing rod collections. It is an "American Made" blank using American sourced raw materials, and assembled in America by our skilled technicians.

It represents the most recent Randy Penny design that is unlike anything Seeker has ever produced. These lightweight rods are equipped with Ceramic Guides with Stainless Steel frames for corrosion resistance, lightweight EVA grips, graphite reels seats, and an attractive wrap of black and grey. Each rod is also graced with Matt Kotch original artwork. He was commissioned to create the "Jet-Ray" design. This design is sure to be a collectible. These Stealth Line rods are going to be modestly and affordably priced under or near the \$200 price tag for ring guide models from 12lb test to 50lb test. The all roller guide models will be in the low \$300's.

The Stealth will be flying into your town soon. It has been labeled the "World Rod" by design. These rods and their actions are applicable in every part of the ocean fishing world from the West Coast to the East Coast, from the Gulf Coast to the Mediterranean Sea...They will perform and will never disappoint.

- Composition: **CLASSIFIED**  
 Gray Matte UV Inhibitor Coating  
 Stainless Steel/Ceramic Guides  
 Lightweight Black EVA Grips  
 Graphite Reel Seat  
 Subtle Gray/Black Double Wrap
