52761811	BTS 659XXXH 5 3/4' AR/UB	5'9"	80-130

Although Seeker Rod Company began on the West Coast, they have developed rods to meet the demands of East Coast fishing! Its clear that East Coast fishermen are just as hardcore or even moreso than those on the other coast. This is the reason Seeker-drew up plans to bring a full line of rods to market just for the anglers fishing for stripers, tilefish, false albacore, tautog, and others. This line includes everything from bait rods to casting rods, to trolling rods to surf rods. There is even a specific rod for cod and a full line of Bunker Spoon and Wireline rods. A Seeker will always be a Seeker no matter where in the world you are fishing!
