

Super Seeker

The Super Seeker series of rods has taken the saltwater fishing community by storm. Since its introduction in 2008, this line of ultra high-end saltwater fishing rods has redefined fishing in every line class. In spite of their relative light weight design, these rods are incredibly strong. Each Super Seeker is assembled using solid titanium guides with Nanolite rings (Except spinning and roller rods). Every guide wrap is base coated to ensure the blank is protected. Then they are triple wrapped for strength and beauty. You'll notice that our wraps are comparable to a custom rod at a fraction of the price. We use EPMD foam grips for durability and comfort and aluminum reel seats as well. These are arguably the finest fishing rods available today. The construction, the finish, and the feel when pulling on big fish will convince you that when you need the gear to land the fish of a lifetime, you need a Super Seeker.

Spinning Rods

System #	Model	Length	Line Rating
55400511	SS 270-7'S	7'	12-20
55400521	SS 870-7'S	7'	15-25
