Actions Designed by East Coast fishermen and charter captains especially for the Northeast

Seeker Rod Co. Supports Catch and Release

East Coast American SALTWATER RODS

These rods were designed especially for the northeast by east coast charter captains and fishermen.

East Coast fishermen demand the right action in their rods. And our East Coast American blanks are carefully designed to produce a durable, lightweight rod—one you'll soon call your favorite. With the value and quality you'd expect from Seeker, made in the USA.

FEATURES

These rods are single-wrapped black on black, with turquoise and gold trim. They're fitted with real hypalon grips and graphite-body reel seats with stainless steel fittings. PREMIER STAND UP/TROLLING RODS feature Aftco roller guides & tops or Fuji "Turbo" style conventional guides. Reel seats are Perfection machined aluminum or Aftco uni-butts. All rods are double wrapped with turquoise underwrap & black overwrap with gold trim.

Black Surf Rods

***FUJI Alconite Guides & Tops Braided line friendly. Designed by Butch Nappi.** We've also got actions to handle the needs of surf fisherman. The next time you hit the beach, cast a Seeker surf rod and enjoy the power, action and distance that'll make you feel like a seasoned tournament caster.

FEATURES

We build one-and two-piece E glass blanks, and fit them with Fuji ceramic guides & tip tops and reel seats—all in black. Then they're double wrapped in turquoise, black and gold.
