

GRIP CATALOG

**TOUR**   
THERE'S A NEW STAR ON THE HORIZON

# ***TOUR STAR GRIPS***

*TOUR STAR GRIPS* were designed to be the first REPLACEABLE fishing rod grip.

Whether you're a Weekend Angler, Tournament Angler, or a Touring Pro, *TOUR STAR* Grips, will improve your fishing.

The V17 Material used on the outer layer of *TOUR STAR* Grips, was created by the golf industry leader, WINN Inc. This new gripping surface is more comfortable to hold, lighter in weight, and gives the "NEW" *TOUR STAR* Grips a better "FEEL" than traditional cork.

*TOUR STAR* Grips also increase accuracy in casting by allowing the angler to compress the grip while casting.

**AND BEST OF ALL!**

**TOUR STAR GRIPS ARE "MADE TO GET WET"**

# ***WHY TOUR STAR GRIPS?***

## **LIGHTER**

TOUR STAR GRIPS are constructed by combining Injected Molded EVA and V17, a patented material developed by WINN, INC. By using a new proprietary method of combining these two materials, TOUR STAR GRIPS, are lighter than conventional cork handle.

## **BETTER FEEL**

Once you put a TOUR STAR GRIP in your hand you will notice the significance difference between the "FEEL" of V17, as apposed to cork. The V17 material feels tacky to the touch, and remains that way, whether wet or dry.

## **BETTER ACCURACY**

TOUR STAR GRIPS allow anglers better accuracy in casting, by being able to compress the GRIP while making a casting motion. By creating better gripping pressure, anglers will have better control of the rod, thus improving casting accuracy dramatically. Control while fighting fish is also greatly improved as well.

## **MORE COMFORTABLE**

TOUR STAR GRIPS are absolutely the most comfortable grips you can have on a fishing rod. Once you put one on one of your rods, you will change from cork on all your rods, the difference is that dramatic.

## **ALL WEATHER**

TOUR STAR GRIPS are made to fish in any weather condition. The V17 material, developed by WINN INC., was created to stay tacky and provide a solid grip, wet or dry.

# GRIP ASSORTMENT

## TOUR STAR LOGO GRIPS

Available in 8.5", 9.5", and 10.5" sizes. Logo Grips feature Tour Stars exclusive fish pattern and can be customized to your individual Logo upon request. Minimum quantities required. Available in both casting and spinning models.
