

Looking for something unique and stylish, yet gives you all the sensitivity you want in a rod? Andrew's Rod Components fit the bill.

FLAT FACE REEL SEAT "TINY" FP MODEL

(Quick Lock Type) You will need a matched front grip such as ACFF41F or AEFF41F for the FP model. This small sized "Tiny" reel seat is an exclusive design of Andrew's. It has been engineered for ruggedness and with the Angler's comfort in mind. The "Tiny" is good for fresh water and very light salt water fishing.

No.	Length	I.D.	Description	Price
AFFFRWFP	95mm	11mm	Rosewood / Gold Hardware	\$32.58

AFGKSRWC25	"	"	Rosewood/Silver	89.09
AFGKSBWC25	"	"	Blackwood/Silver	89.09

Exposed Grip Kit

Andrew's exposed grip kits come with WBPA2 aluminum light weight butt end. The color of the butt end matches the color of the hardware on the reel seat. I.D. of front grip is 6mm. The Kevlar carbon pipe is woven and has a very striking surface. Rear grip length is 213mm. The carbon pipe has a 9mm inner diameter. Rod blanks must be smaller than 9mm to work with this grip kit.

No.	Grip	Length		Hardware & Wood	Price
		Rear Length	Overall Length		
AFGKGRWCSP	Cork	213mm	330mm	Rosewood/Gold	\$110.72

BLUE BEJEWEL COLOR REEL SEAT

The finish on this seat is beautiful and will give your custom rods a very distinctive look. The hood has a gold decorative band.

No.	I.D.	Description	Price
AFBJECSSD16	15mm	with Nut Hood	\$43.27
AFBJECSKN16	15mm	with KDPS	43.27
AFBJIPSSD16	15mm	with Nut Hood	43.27
AFBJIPSKN16	15mm	with KDPS	43.27

BLUE BEJEWEL COLOR REEL SEAT HOOD

The hoodless reel seat nut or the traditional style nut can be purchased separately. The AFBJSD16ASH has a decorative gold band.

No.	Type	Price
AFBJSD16ASH	Nut Hood	\$10.18
AFBJKDPS16	KDPS	10.18

WOOD TRIGGER REEL SEAT

Most of the wooden reels available today are only for spinning rods. Andrew's offers a wood seat with a trigger for bait casting.

No.	Overall			Wood		Price
	Length	O.D.	I.D.	Color	Hood Color	
AFTRGRW	94mm	22.2mm	13mm	Rosewood	Gold	\$36.91
AFTRGBW	94mm	22.2mm	13mm	Blackwood	Gold	36.91
AFTRSBW	94mm	22.2mm	13mm	Blackwood	Silver	36.91

WOOD INSERTS

These wooden inserts have been specifically designed for Fuji's skeleton seat. For Daiwa reels order the 93mm length and for Shimano reels order the 86mm size.

No.	Suitable		Overall		Wood		Price
	Reel	Length	I.D.	Color			
AFRI93RW	Daiwa	93mm	14.5mm	Rosewood		\$12.72	
AFRI93BW	Daiwa	93mm	14.5mm	Blackwood		12.72	
AFRI86RW	Shimano	86mm	14.5mm	Rosewood		12.72	
AFRI86BW	Shimano	86mm	14.5mm	Blackwood		12.72	

I/P (Ion Plated) REEL SEAT

This unusual finish is available in either IPS or ECS style seats. Selection of hood type can also be varied. The finish has a very shiny, rainbow type look.

No.	I.D.	Hood Type	Price
AFECSD16	15mm	Nut Hood	\$43.27
AFECSD16FP	15mm	Quick Lock	43.27
AFECSKN16	15mm	KDPS Quick Lock	43.27
AFIPSD16	15mm	Nut Hood	43.27
AFIPSD16FP	15mm	Quick Lock	43.27
AFIPSKN16	15mm	KDPS Quick Lock	43.27

CORK HANDLE SET

This very easy to install handle set features a rosewood insert. The rear grip lengths are available in two different sizes: 240mm or 295mm.

No.	Length	I.D.	Wood Color	Price
AFHS240RW	240mm	8mm	Rosewood	\$33.09
AFHS295RW	295mm	8mm	Rosewood	38.18

WOOD BUTT ENDS

For a classy end to your custom rod why not try a wood butt end? Available in either Rosewood or Blackwood the butt end has a 20mm hole inside the butt end for easier installation.

No.	Height	O.D.	Hole I.D.	Wood Color	Price
AFBTRW	14mm	26.5mm	20mm	Rosewood	\$5.09
AFBTBW	14mm	26.5mm	20mm	Blackwood	5.09

KEVLAR CARBON PIPES

This pipe is intended to fit Fuji reel seats ECSD16, TCSD16, IPSD16, or TBS16. Because Fuji seats have a lot of tolerance the pipe is designed for use with their minimum size. So, the O.D. of the pipe is actually 14.6 to 14.7mm. Very decorative accent for custom rods.

No.	Length	O.D.	I.D.	Price
AFKV15	500mm	<5mm	13mm	\$53.46

ANDREW'S FISHING SHAPED FORE GRIPS

Reel Seats are sold separately. Pricing is just for Andrew's shaped foregrips.

Carbon Tubing Selection

Coordinate your painted reel seat with the exact color painted carbon tube for an outstanding rod.

Painted Fuji Reel Seats

Each custom, hand painted seat goes through a multi-step process to get this incredible finish. All seats are prepared for painting by being sanded and degreased. A specially formulated base coat is applied for good adhesion between the seat and paint. Fuji seat material does not except paint easily. The seat is then prepared for a two-step color coat, with a light sanding before and after each color. A final clear coat is applied to give the seat the very hard finish which prevents damage and scratches. The seats must then dry for 48 hours.

Once again Merrick Tackle is offering you a product that is totally unlike anything you can find elsewhere! These seats will give your custom rod a very ritzy look!

The painted reel seats are available in the following 5 seat styles:

- B = Bocote
- M = Maple
- W = Walnut
- Y = Yellow Heart
- BM = Blue Stained Maple
- GM = Green Stained Maple

ADJUSTABLE REEL SEATS

This multi-position reel seat locks all reels very securely while also allowing for movement of the seat location on the blank. Ideal for any rod where you need to alter the position of your reel seat to gain maximum casting distance and switch out reels. The ID is adjustable to approximately 5mm smaller than the size stated. Fits on all rod blanks, but works best on blanks that have a butt section of equal diameter or slow taper. Our fully assembled graphite seats have cushioned stainless steel hoods, with an overall length of 9".

Fuji Reel Seats

“ACS” Next Generation Blank Exposed Casting Seat

By modifying the position and shape of the trigger, the ACS allows you to cast more accurately than other reel seats, automatically aligning the rod tip with the direction of the cast. This revolutionary new design gives you more power and control while helping to eliminate arm and wrist fatigue. Along with the exposed blank-thru construction for increased sensitivity, the ACS reel seat proves to be the best handle system to come along since Fuji's original Trigger Reel Seat.

VSS Spinning Reel Seat

The new versatile spinning Reel Seat designed by Fuji, improves overall strength and performance over standard reel seats and can be used with a much wider range of reels. The slim, smooth streamlined shape provides increased comfort and a superb fit for the angler's hand, while the curved hood supports the hand and fingers from the first cast to the last catch. Increased comfort and support leads to better rod performance.

FULL ARBORS - MODEL FA

Full arbors are made of polyurethane, making them more durable than standard graphite arbors. These lightweight arbors' O.D. and I.D. correspond to the Model GA graphite arbors. Standard I.D. can be reamed to larger sizes in order to fit a wide variety of blank diameters.

Reel Seats

Fuji's Trigger Reel Seats have a 7.9 degree offset, which reduces fatigue and provides for greater comfort when palming a reel. The flared wing design near the base of the reel seat fits your hand more comfortably and offers greater stability and control when casting and fighting that fish.

PALM SUPPORT REEL SEATS

The Palming Support reel seat presents a totally new design that appears to have a trigger, but it's not, it's a support for the palm of your hand. This trigger look alike is actually placed further back on the reel seat and slanted backwards to provide the support needed while palming a reel or fighting fish. Your wrist remains at a more natural angle when fishing, dramatically reducing fatigue and increasing comfort. It also provides the control you need to bring in a fish unlike the twisting and turning you get trying to hold on to a standard reel seat. It will make a big difference in the way you feel after a day of fishing.

BLANK EXPOSED REEL SEATS

The ECSM reel seat is more than just another exposed blank seat. Importantly, each reel seat has a blank exposed area so that your finger comes in direct contact with the blank for maximum sensitivity, but the design also allows for greater stability and comfort. More than 20% lighter than Fuji's other lightweight casting reel seats, it has a 7.9 degree offset, which reduces fatigue and provides for greater comfort when palming a reel. As with other Fuji reel seats, it sports a lock tight nut system and exclusive S4 stainless steel cushioned hoods.

LOC-DOWN REEL SEATS

No more decals. Custom add a name on your new revolutionized saltwater, anti-wobble seat. Guaranteed stability. Crafted from high quality aluminum, Loc-Down with a type 2 anodize will fit most conventional fishing reels. The seat is available in black, silver and gold and has special stainless steel washers to fit almost any reel. Each comes with a machined elliptical pocket, domed with acrylic for protection—meant for placing a logo design inside. A custom logo is available at no additional charge—you must allow additional time for delivery. The reels are stocked and sent when ordered, logos follow. Available in 3 sizes: 20, 22 and 24 mm, the seat is grooved on the inside to allow for a firm lock when gluing to a blank.

JRJ31-	31mm	18.45	S - Silver

GRAPHITE ARBORS

Light as cork, but unlike cork or tape bushings because they are much harder. They give the rod maximum sensitivity, as they transmit the strike signal and lure action from the blank through the reel seats, to the fisherman's hands. Glue channels on their outside surfaces mean firmer bonding. All arbors are standard 25.4mm (1") long.

STRU1-B	Anodized Black Alum.	19.81

DOWNLOCKING SKELETON SEAT ONLY

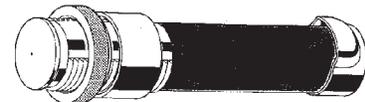

Same as STRU1, except downlocking. Retainer is formed nickel silver, highly polished with aluminum end cap. Supplied with finished insert and transition ring which fits between the body and the cork handle for the customized touch. Unassembled. Wood insert sold separately.

No.	Finish	Price
STRD1-P	Polished Aluminum	\$15.44
STRD1-B	Anodized Black Alum.	18.77

STANDARD UNLOCKING SKELETON SEAT ONLY

A distinctively designed reel seat incorporating "V" threaded body with milled slot. Diamond knurled lock nut and machined slip ring, formed nickel-silver retainer, and finished insert. Standard unit supplied with butt plug as a separate part that can be epoxied in place. Wood insert sold separately. Unassembled.

No.	Finish	Price
STRU3-P	Polished Aluminum	\$9.45
STRU3-B	Anodized Black Alum.	12.03

STANDARD DOWNLOCKING SKELETON SEAT ONLY

Downlocking version of the popular U-3. Supplied with formed, highly polished nickel silver retainer with aluminum end cap, finished insert and transition ring which fits between the body and the cork handle. Unassembled. Wood insert sold separately. Standard insert I.D.: 360".

No.	Finish	Price
STRD3-P	Polished Aluminum	\$9.45
STRD3-B	Anodized Black Alum.	12.03

DELUXE UNLOCKING REEL SEAT SKELETON SEAT ONLY

Slim design and elegant appearance. The U-8 comes with an unpolished retainer and end. The fine threads along the body ensure a secure fit at both ends of the reel foot. Wood insert sold separately. ID: 420"

No.	Finish	Price
STRU8-NS	Nickel Silver	\$32.20

Struble

DELUXE UPLOCKING REEL SEAT SKELETON SEAT ONLY

Designed for heavy duty use. This unit incorporates a 1½" cork section which forms a non-removable fighting butt integral with lock nut. Allows firm seating of the reel, firm grip when unlocking. Supplied with finished insert, nickel-silver formed retainer. Wood insert sold separately. Unassembled. Standard ID: 360"

No.	Finish	Price
STRU22ALU-C	Bright Clear Aluminum	\$20.98
STRU22ALU-B	Anodized Black Aluminum	24.23

WOOD SOLD SEPARATELY

UPLOCKING ALL METAL FLY SEAT

Similar in style and appearance to the U7 seat. The second lock nut and slip ring are a combined unthreaded unit with the 'O' ring embedded in the slip ring. Supplied with removable plug or specify finishing ring to use if a permanent fighting butt is to be added. The STRUFBK fighting butt also fits this seat. Assembled. ID: 584"

No.	Finish	Price
STRU6-B	Black Anodized	\$20.47

The U6E is a modified version of the standard U6. It features a retractable fighting butt section that extends to 3". The 2¼" front extension is designed to be covered by the grip and allows adequate space to secure the rod blank. Assembled.

No.	Finish	Price
STRU6E-B	Black Anodized	\$54.90

SALTWATER SEAT-U7

Designed primarily for use with heavier fly reels. Black anodized for corrosion resistance in salt water applications. Two heavy duty diamond knurled lock nuts separated by a compressible 'O' ring to assist in secure locking. ID: 584"

No.	Finish	Price
STRU7-B	Black Anodized	\$32.86

UPLOCKING ALL METAL SALTWATER SEAT-U15

Small diameter all metal seat designed for saltwater use. Machined aluminum front retainer. "V" threaded body 3.940" long. Supplied with tow locking nuts with 'O' ring between, bearing on a machined slip ring. Slip ring is machine contoured inside and out to tilt when nut tightens down. 1" attached fighting butt. OD: 640", ID: 500" Seat length: 5.1"

No.	Finish	Price
STRU15-B	Black Anodized	\$25.20

Struble

Complete Seats (Inserts included)

DELUXE DOWNLOCKING-D2

Designed with raised, finely knurled end cap, slip ring and oil finished teakwood insert which has been routed to receive the reel foot. Recommended for smaller rods and reels having a narrow foot. Not recommended for use with a Pflueger reel. Transition ring is placed between cork and teakwood insert to give this beautifully designed seat the final touch of elegance. Unassembled.

No.	ID	Finish	Insert	Price
STRD2-P	.375"	Polished	Teak	\$14.84
STRD2-B	.375"	Black Anodized	Teak	17.96
STRD2-NS	.375"	Nickel Silver	Teak	27.93

UPLOCKING SEAT-U20

Small diameter seat. It is designed using a fine threaded body. The slip ring is machine contoured and will not tilt when the fine diamond knurled lock nut is tightened. Machined front retainer which has a flange to serve as a finishing ring when covered by the cork ring.

No.	ID	Finish	Insert	Price

HEAVY DUTY GRAPHITE/ALUMINUM MACHINED HOOD REEL SEATS-SALTWATER

Heavy duty graphite reel seats are ideally designed for saltwater and boat fishing, and have anodized aluminum machined hoods. Available in silver, black or gold. Thicker body and larger inside ribs for extra strength, more sensitivity and firmer bonding. All sizes except G20m have a graphite nylon cushion inside to prevent electrolyte corrosion. Sliding machined hood has self-aligning design, to work with keyway on body, for faster and stronger reel mounting.

RESIN IMPREGNATED WOOD BUTTS

Resin impregnated wood butts are functional as they are appealing. Hardwood veneers are fused together under extreme pressure and heat with thermosetting plastic resins. The resulting product is exceptionally durable. Although it is wood, it is impervious to the elements and has a permanent high gloss finish within.

Specify wood color. See wood chart below.

PAC BAY STANDARD SALTWATER ALUMINUM BUTTS

Handles are swaged and reel seats machined from high grade aluminum for strength & durability. Hard anodized to prevent corrosion and resist scratching. MOLYKOTE™ dry film lubricant has been permanently bonded to all locking nut thread surfaces. This critical application prevents seizing and galling, primary causes of reel seat thread damage.

All locking nuts are reverse knurled to prevent scratching rods when transporting or storing. Available in clear anodized silver & hard-anodized black body with gold hoods and nuts.

STORABUTT

The "Storabutt" is a handle and reel seat combination designed especially for big game anglers who use curved butts. The reel seat is

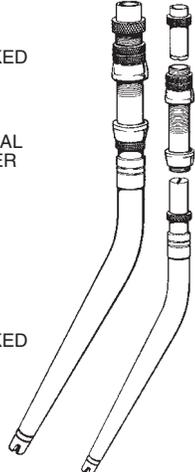

feruled at both ends to permit you to remove the butt section of your rod without also removing your reel and disturbing your terminal tackle. This makes it easier to store curved butts, especially on boats where storage is a problem. The "Storabutt" is available in either curved or straight models for 80lb. and 130lb. class rods. **Colors: (S) Silver or BG (Black/Gold)**

EXTEND-A-BUTTS

Converts Your Standup Rod to A Fight Chair Rod. Even While You Are Fighting Your Fish!

Great for battling big fish with a standard trolling rod and a fighting chair. Allows you to pull harder with less effort and your line will clear the boat rail. Just slip the Extend-A-Butt over the end of UB1 or UB2 and it locks instantly. Makes it easy to move between a fighting stance and your chair.

ADAPT-A-BUTT

Versatility Is The Name With Big-Game.
Have you ever wanted to use your 50lb. class rods on your 80lb. class butts, or your 30lb. class rods on your 50lb. class butts? Stuart® Industries' new Adapt-A-Butt ferrule adapter uses an alignment plug that allows big-game anglers to seamlessly integrate and utilize all of their favorite rods with any of the larger butt sizes—curved or straight. A must for any offshore guru's tackle bag. Adapt-A-Butt is available in black, silver and black/gold. Size #6 fits #4, #4 fits #2 and #2 fits #1.

CALL FOR DETAILS.

HEAVY DUTY ALUMINUM MACHINED HOOD SALTWATER REEL SEATS

Constructed from premium marine grade aluminum. Precision machined heavy duty hoods that accommodate all sizes of reel feet. Knurled non-slip locking nuts on durable deep thread cuts.

PLEASE SPECIFY FINISH BY NUMBER.

Color Chart

B = Black
GB = Bronze. Overall color is Glimmer Bronze with hints of green and amber when seen in different lights.

Note: For colored sleeve butts the durable color is applied over the standard sleeve butt. *** See our website for color picture ***

BORED ALUMINUM BUTTS

Swaged Economy Models designed for one-piece Trolling Rods. These are available in silver, specify when ordering.

*** Please note: For maximum strength, the blank must go all the way to the bottom of these butts.***
