RINGED

Four of Owner's most popular saltwater hooks, in selected sizes, are now available in ringed models. Super strong, welded rings in the eye of each hook reduces stress on the hook, making the overall unit stronger. Ringed hooks also allow rigged live baits to swim more naturally, and once hooked up, the hook pivoting on the ring tends to wear less of a hole in an active fish's mouth.

BIG EYE BUCKTAIL JIG

The Ultimate Fishing Weapon

Unique to the Big Eye Bucktail is the ability to fish in both casting and jigging modes. Simply attach your line to the front eye for casting—use the top eye for jigging. The larger Big Eye is designed to excite predatory fish of all species and leads to additional strikes. The finishes on these jigs are second to none and definitely attract attention. Designed to actually stay parallel while jigging, the Big Eye Bucktail is very easy to use, and fool proof. Suitable, but not limited to: sea trout, fluke, snapper, bass, cobia, stripers, snook or dolphin, fish to name a few.
