

# HOPKINS & HOLLOWAY

Rod Components

*A history of excellence.*

From humble beginnings in England in the 1940's, Hopkins & Holloway Ltd has demonstrated unerring insight into the needs of fly rod builder worldwide for over 65 years. The company has consistently offered a product selection that incorporates the latest manufacturing technology, and maintains a solid commitment to serving a wide variety of customers around the globe. Anglers Resource® is proud to be entrusted with the marketing responsibilities of Hopkins & Holloway®, and now, Stonefly® Fly Tying Accessories throughout North America. We continue to share the company's dedication to quality products, ongoing innovation and excellent customer support at every level.

*66 years of innovation.*

## Hopkins & Holloway Traditional Snake Guides

H&H Traditional Snake Guides are quality built using hard drawn wire for maximum resilience and diamond polished to assure a smooth finish that increases distance while being extremely easy on fly line. Foot is pre-ground yet strong enough for additional custom grinding where needed. Available in four finishes for the final look you want. All finishes are extremely hard, achieving Mach 1 standards.

HCTW2/0	2/0
HCTW1/0	1/0
HCTW1	1
HCTW2	2
HCTW3	3

## H&H Thin Wire Snake Guides

H&H Thin Wire Guides offer comparable strength in a lighter wire that has slightly less effect on rod performance.

## Hopkins & Holloway Single Leg Snake Guides

H&H Single Leg Snake Guides are quality built using hard wire for maximum resilience and diamond polished to assure a smooth finish that increases distance while being extremely easy on fly line. A Single-Foot creates a wrap that covers less distance on the blank and therefore has very little effect on rod action and flex. Available in three finishes for the final look you want. Finishes are extremely hard, achieving Mach 1 standards.

### H&H BRACED Stripper Guides

Added strength in larger ring sizes for heavier rods.

## Hopkins & Holloway Hayfork Tip Rings

H&H Hayfork Tip Rings are a popular and traditional part of many flyrod layouts. H&H Hayfork tips are available in three tube lengths and three different frame materials to match up with any guides in our catalog. Choose Standard, Large Loop or Extra Large Loop in Chrome, Titanium, Black or Gold finish.
